

Experienced Chemists/Lab Technicians Job Specification:

TE Laboratories Ltd (TelLab)

TelLab is a chemistry company based in Tullow Co Carlow. It is a multi-divisional company and is active in Irish/UK and European marketplace. Operations are conducted from a purpose-built laboratory complex which includes an environmental, R&D and an oil and fuel testing laboratories. Production facilities/ laboratories also exist for the manufacturing of chemical reagents and standards. Due to continued expansion across all of our Laboratories we have a number of positions available in our Environmental Laboratory, Transformer Oil Laboratory, R&D and Production Laboratory.

Overview

The successful candidates will be responsible for carrying out duties which will include chemical analysis of oil, water and soil samples using a wide range of instrumentation including GC, HPLC, ICP-MS and AAS. 3rd level qualification in Chemistry is essential, experience of method development and validation would be an advantage.

Our Production Laboratory is accredited to ISO 9001 Quality Standard. Duties include manufacture and assay of a range of volumetric solutions, buffers and standards at bulk and bench top, batch sizes for both the Irish and Export market. The reagents are manufactured to USP, EP and BP specification. Opportunities in the area of product development and Quality Control tests such as Flame AAS and IC will also be given to the appropriate candidate. 3rd level qualification in Chemistry is essential, and experience would be an advantage.

Ideal Candidate will possess:

- Strong scientific and organisational skills
- Excellent communication, both written and oral
- Excellent attention to detail
- Ability to work independently and as part of a team, with self-motivation, adaptability and positive attitude
- Experience of working in a Laboratory environment essential.
